17 July 2023

Commonwealth Ministerial & Parliamentary Services Senator Pauline Hanson Suite 3 Level 36 1 Eagle Street Brisbane QLD 4000

FINAL NOTICE: DEMAND FOR IMMEDIATE INVESTIGATION

Dear Senator Pauline Hanson

I am contacting you for the final time in the name of natural justice and in serving of the public interest.

You are now on FINAL NOTICE to launch a full scale investigation into the fraud, misconduct, cover-ups, and corruption within Racing Queensland and their connections.

I have attempted to make contact with you on several occasions, including 30th June 2016 when I submitted a comprehensive evidence package to your Albion office, detailing matters of grave urgency regarding corruption within Racing Queensland and the greyhound racing industry, the covering up of this corruption by its associated regulatory bodies, law enforcement, and the Crimes & Corruption Commission, as well as the unprecedented intimidation, harassment, and defamation I have sustained while working to expose this corruption. However, the incriminating evidence I provided was returned to me, and despite multiple evidence submissions and formal correspondences delivered to your offices, I have yet to receive any further response.

Most recently on 5th May 2022 during Senator Malcolm Roberts' campaign against the corruption of the RSPCA, I made contact with Mr Hugh Carter regarding the victimisation of Kate Mitchell and Price Hill, who were targeted by the RSPCA in conjunction with the Gympie Regional Council for intimidation and harassment in response to their assisting my organisation in handling evidence of cover-ups and corruption within the greyhound racing industry and its connections; most notably the direct connection between the RSPCA and Racing Queensland. This harassment came in the form of the wrongful four year impoundment and subsequent destruction of their two beloved dogs Maggie and Max, amongst other peripheral harassment. Despite direct email and phone contact with Mr Carter on 5th May and having received Mr Carter's personal assurances that these kinds of matters are taken very seriously and that something would be done, the successful delivery of a comprehensive evidence package directly to Mr Carter's office on 30th May 2022 and subsequent follow up correspondence, more than a year has passed and I have still received no response.

The Phoenix Animal & Crimestopping Rescue Taskforce Administration Services | The Phoenix Taskforce Recording & Transcripts Administration Services 54 Klingner Road Redcliffe Queensland 4020 | ABN 89 047 738 930

The case of Maggie and Max as well as the history of contact with both yours and Mr Hugh Carter's offices have been documented in video format on my website <u>https://phoenixtaskforce.org</u> and on YouTube, copies of which I have provided to you on the USB drive accompanying this letter. See the "Phoenix Taskforce Video Library" folder on the USB drive for the following titled videos:

- 14. You Have Been Served
- 13. Justice For Maggie & Max

How terrible it is that I have had to establish my own media production crew to create online content in order to expose this mess. Had the regulatory and law enforcement bodies exercised their due diligence to investigate such matters I would not have needed to contact you. However, over the past fifteen years I have exhausted every established conventional route and official channel for submitting my evidence, distributing crucial supporting documentation to not only the CCC, but also to every relevant government office and regulatory body in Australia, the Australian Police Service in almost every state, the Attorney General's office, and even the office of the Governor General.

In each instance I have prompted urgent investigation into these matters but each and every time I have either been ignored, given the run-around, had my evidence returned to me, been told that the evidence was too far reaching and could not be viewed or it would open Pandora's box, or had my evidence used as leverage for personal gain and career advancement; such as with Hon Stirling Hinchcliffe who has had my evidence since 2016 and instead of acting on it promptly became the next Minister for Racing.

During the Alan MacSporran Queensland Greyhound Racing Commission of Inquiry in 2015 I submitted evidence directly to the commission, as well as having evidence delivered through a back door contact, Matt Lever, a law student at the time and friend of Jen O'Farrell who was heading up the commission. However, the submission was blocked after retired Chief Justice Judge Wayne Martin threatened disbarment to any lawyer willing to view my evidence, and the advice of Jen that I received back from Matt who's eligibility to pass the bar was also under threat, was to spread my evidence and story far and wide to every mainstream media and news outlet, but this yielded the same ineffective result. To date no action has been taken on any of my submissions.

Thus I have no recourse but to reach out once again to you for help. I can only assume that my previous correspondences and submissions of evidence have not reached you. Should this happen again, know that delivery of this submission has also been documented on video, and will most assuredly make its way into the arena of the Australian public.

ALL of the organisations directly responsible for taking action on this evidence have failed in their Duty of Care, and professional capacity to report or act on a known and orchestrated injustice, which affects not just myself, but also the Australian public and the animal kingdom. My ongoing petition to request a Royal Commission into the corruption within Racing Queensland as well as into Queensland Government and regulatory bodies as to why my evidence has not been investigated and all guilty parties involved have not been dealt with according to the Law, clearly shows that these matters are well within the public interest. The petition continues to garner support reaching new eyes daily. I have provided both digital (USB drive) and hard copy of all petitioning of public support to date along with this letter of submission.

During the time I have been attempting to have my evidence acted upon, the only actions that I have seen were from individuals and organisations who found me and my evidence too big of a threat.

As stated above I was ostracized from having legal representation by retired Chief Justice Wayne Martin of Western Australia threatening anyone in the legal profession willing to take on my case or handle my evidence with disbarment.

Controlled opposition moles have been planted into my life in order to deliberately delay submission of or destroy my evidence, and sabotage my case.

I have been threatened, assaulted, knocked unconscious and hospitalised, held at gunpoint, falsely accused, and publicly defamed and humiliated with my businesses and livelihood destroyed beyond repair. Most recently I have been harassed in public by an assailant driving a vehicle with stolen plates ramming my car multiple times.

The Phoenix Animal & Crimestopping Rescue Taskforce Administration Services | The Phoenix Taskforce Recording & Transcripts Administration Services 54 Klingner Road Redcliffe Queensland 4020 | ABN 89 047 738 930

My training license has been revoked on a fraudulent basis, causing me massive loss of income through business revenue and prize money from race meetings in which I would otherwise have been able to participate.

During these difficult years fighting to clear my name and have my evidence investigated, due to the destruction of my professional reputation I have lost countless clients resulting in loss of income worth hundreds of thousands of dollars annually, all while suffering several attempts on my life, as well as the deliberate sabotage and destruction of my possessions, vehicles, and properties.

If Kerry Watson (ex-GRA Chair) and her syndicate of board stewards (now Racing Queensland) had not colluded with the Chiropractors Board of Queensland (now Chiropractors Board of Australia | AHPRA) in staging baseless litigation and fraudulent inquiries against me to prevent me from exposing the corruption of the industry, then my businesses would still be thriving, and I would not have had to sustain such tremendous personal, professional, and financial loss as a result of these strategic attacks.

For more than 15 years I have vehemently been seeking:

- The exposing and discontinuation of all live animal baiting as well as the killing and disposal of greyhounds
- The exposing of officials, stewards, and other members on the board of Racing Queensland participating in illegal greyhound ownership and race fixing
- Investigation into the Racing Queensland connections colluding in covering up all of the above
- Having my name publicly cleared of all wrong-doing
- All perpetrators being held fully accountable and prosecuted
- Compensation for the unmitigated losses I have sustained
- The reinstating of my public trainer and studmaster/breeder licensing

I have been supremely patient, but now I have no patience left and I have nothing left to lose. After more than 15 years of struggle, busting my guts for the animals and the public, don't you think it's time this mess was cleaned up, and the greyhound racing industry was reformed from the ground up for the betterment of all?

Yet again in the pursuit of justice I am forced to displace my animal chiropractic work and primary income in order to compile evidence for submission to regulatory bodies and government offices to prompt investigation.

Thus I am demanding immediate action be taken to investigate the cover-ups and corruption of Racing Queensland and its connections. To assist in this action I am providing you with a comprehensive and detailed video breakdown of the key events that instigated this campaign against systemic corruption, namely the QGRA (Queensland Greyhound Racing Authority – now Racing Queensland) false inquiry in which I was framed, as well as the orchestrated Chiropractors Board Of Queensland (now Chiropractors Board Of Australia | AHPRA) law suit that preceded it, both of which were intended to thoroughly defame me resulting in the destruction of my thriving business and professional reputation. You will find both digital and hard copy evidence dossiers as well as full transcripts of the false inquiry hearings to accompany these videos:

- Pandora's Box Is NOW WIDE OPEN
- False Inquiry Breakdown Part 1
- False Inquiry Breakdown Part 2

Digital evidence of the thwarting of my defamation lawsuit against the Chiropractors Board and associated records of Supreme Court proceedings have also been provided, as well as the full evidence package previously submitted to Governor General Sir Peter Cosgrove in 2016.

You are required to produce evidence in the form of a public media release that investigation into this matter has been initiated within 14 days of receipt of this FINAL NOTICE.

The Phoenix Animal & Crimestopping Rescue Taskforce Administration Services | The Phoenix Taskforce Recording & Transcripts Administration Services 54 Klingner Road Redcliffe Queensland 4020 | ABN 89 047 738 930

In the interest of Natural Justice and both public and animal welfare I anticipate your prompt response.

Sincerely,

Johns ____

John Jamieson Director CEO

I reserve all my rights to amend and add to the evidence provided in this submission.
